

How to Add Your Social Media Accounts

Step 1 – Click on the ‘Complete your profile link’

Step 2 – You will see your main profile page.

The screenshot shows a Firefox browser window displaying the APDT (Association of Pet Dog Trainers) website. The browser's address bar shows the URL: `community.apdt.com/apdt/myprofile/profile?UserKey=821a03bd-1`. The page header features the APDT logo and the tagline "Building Better Trainers Through Education". A navigation menu includes links for HOME, MY PROFILE, DIRECTORY, PARTICIPATE, COMMUNITIES, and HELP. A search bar is located on the right side of the header.

The main content area is titled "My Profile" and displays the name "Chris Williams". A sidebar on the left contains a list of profile management options: Profile, My Communities, My Contacts, My Networks, My Messages, My RSS Feeds, My Privacy Settings, My Subscriptions, My Documents, and My Postings. The profile information includes a placeholder for a profile picture and the following details:

- Location: Twinn Falls, ID, United States, 12345
- Website: www.yoursite.com
- Phone: 1234567890
- Email: youremail@whatever.com

Below the contact information, there are sections for "Bio", "Social Media Sites", "Twitter Tweets", "Honors and Awards", "Professional Associations", "Education", and "Job History". Each of these sections currently displays "No Data Found" or "You have not yet added information about yourself".

At the bottom of the page, there is a footer with links for "Privacy Policy" and "Code of Conduct", and a copyright notice: "Copyright © 2013 Association of Pet Dog Trainers. All rights reserved."

Step 3 – Click the little edit gear icon located just above the ‘Social Media Sites’ category.

The screenshot shows a user profile page with several sections: 'Grab Profile Info from LinkedIn', 'Social Media Sites', 'Twitter Tweets', 'Honors and Awards', 'Professional Associations', 'Education', and 'Job History'. A red arrow points to a gear icon in the top right corner of the 'Social Media Sites' section. A dropdown menu is open, listing options to link or connect to various social media and blog accounts.

- Link to your profile on LinkedIn®
- Link to your profile on Facebook®
- Link to your profile on another social network
- Connect to your account Twitter®
- Connect to your blog on WordPress®
- Connect to your blog on another blog site
- Connect to your blog on Blogger®

Step 4 – In some cases, you will be prompted for the address of your social media page. For example, this is what you would see if you were trying to add your Facebook page:

The dialog box is titled 'Link to Your Profile on Facebook®'. It contains the following text: 'If you already have a profile on Facebook®, please enter the link to it here. Please be sure your link is fully formed, for example: <http://www.facebook.com/andysteggles> is correct. Simply inputting "andysteggles" will not work.' Below the text is an empty text input field. At the bottom, there are two buttons: 'cancel' and 'save'.
