**The Honorable Kevin McCarthy**

Minority Leader  
United States House of Representatives  
Washington, DC 20510

March 23, 2020

Dear Leader McConnell, Leader Schumer, Speaker Pelosi, and Leader McCarthy:

We represent the leading professional pet service associations and a collection of 100,000 pet care business owners that help make up America's \$95+ billion pet industry. This economic sector includes businesses of all sizes and touches every aspect of pet care, including, but not limited to: boarding kennels, dog daycare facilities, dog walkers, pet sitters, dog trainers, groomers, retailers, and animal welfare workers.

Our industry increased its number of establishments by more than 60% since 2007, and the number of people employed in pet care services experienced a 111% increase from 2007 to 2017. However, 49% have less than 50 employees and together we are grappling with the immediate and devastating impact of the current COVID-19 health crisis.

To that end, we greatly appreciate and strongly support provisions in the "Coronavirus Aid, Relief, and Economic Security Act" that provide:

1. For pet service professionals to be included in "essential services" so they can continue to support health care workers, first responders, and others who are addressing this health crisis on the front lines and are in need of reliable pet care for their pets more than ever.
2. For comprehensive financial and business support for self-employed Americans with pet care businesses, including direct cash assistance, expanded unemployment protection, and protection of business-critical services like shipping, payments, and internet connectivity, to ensure that self-employed small business owners can weather the immediate threat of the coronavirus pandemic, along with the longer-term threat of economic downturn.

In its current form, the bill would do little to nothing for millions of pet care businesses. The coronavirus pandemic has forced our industry to suspend virtually all services. Many of these businesses are the sole source of income for their owners, employees, independent contractors, families and dependents. Millions of pet care professionals are at risk of losing their jobs, businesses and their retirement savings.

This catastrophic loss of jobs will not simply be erased once this crisis has passed. We are calling on Washington to take immediate action on the following recommendations and include the pet care industry in the “Coronavirus Aid, Relief, and Economic Security Act” and designate said businesses as essential.

Immediate congressional action is needed to protect pet care service workers who, through no fault of their own, are experiencing significant economic harm from this national pandemic. The goal of this legislation must be to ensure that the pet industry workforce can emerge from this crisis strong and intact so they can be a part of and support the economic recovery that our nation will need once we have weathered this storm — and be available for much needed professional pet care services once normal travel, work, and school routines resume.

Finally, and perhaps just as important as anything else, according to the 2019-2020 APPA National Pet Owners Survey, 67% of American households (84.9 million) own at least one pet, and 95% of pet owners consider their pets to be part of the family.

Thank you for your immediate consideration of this request.

The Undersigned,

*A collection of Esteemed Pet Care Service Professional Organizations, with 400+ Pet Care Service businesses representing tens of thousands more.*
